

INVESTOR PRESENTATION

FIRST QUARTER 2024

Statement of caution under the Private Securities Litigation Reform Act of 1995

This document contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to expectations concerning matters that (a) are not historical facts, (b) predict or forecast future events or results, or (c) embody assumptions that may prove to have been inaccurate, including statements relating to the advertising strategies, needs and expectations of brands and agencies, industry and market trends, expectations regarding investment strategies, and the financial targets such as revenue, adjusted EBITDA, and adjusted EBITDA margins of The Trade Desk, Inc. (“the Company”). When words such as *believe*, *expect*, *anticipate*, *will*, *outlook*, or similar expressions are used, the Company is making forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it cannot give readers any assurance that such expectations will prove correct. These forward-looking statements involve risks, uncertainties, and assumptions, including those related to the Company’s limited operating history, which makes it difficult to evaluate the Company’s business and prospects, the market for programmatic advertising developing slower or differently than the Company’s expectations, the demands and expectations of clients, and the ability to attract and retain clients. The actual results may differ materially from those anticipated in the forward-looking statements as a result of numerous factors, many of which are beyond the control of the Company. These are disclosed in the Company’s reports filed from time to time with the Securities and Exchange Commission, including its most recent Form 10-K and any subsequent filings on Forms 10-Q or 8-K, available at www.sec.gov. Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this presentation. The Company does not intend to update any forward-looking statement contained in this presentation to reflect events or circumstances arising after the date hereof.

Included within this presentation are non-GAAP financial measures that supplement the Condensed Consolidated Statements of Operations of the Company prepared under generally accepted accounting principles (GAAP). Reconciliations of GAAP to non-GAAP amounts for the periods presented herein are provided in schedules accompanying this presentation and should be considered together with the Condensed Consolidated Statements of Operations. These non-GAAP measures are not meant as a substitute for GAAP, but are included solely for informational and comparative purposes. The Company’s management believes that this information can assist investors in evaluating the Company’s operational trends, financial performance, and cash-generating capacity. Management believes these non-GAAP measures allow investors to evaluate the Company’s financial performance using some of the same measures as management. However, the non-GAAP financial measures should not be regarded as a replacement for or superior to corresponding similarly captioned GAAP measures, and may be different from non-GAAP financial measures used by other companies.

Information contained in this presentation concerning the industry and the markets in which the Company operates, including the Company’s general expectations and market position, market opportunity, and market size, is based on reports from various third-party sources, assumptions that the Company has made based on information in such reports and the Company’s knowledge of the market for its platform. Although the Company believes such third-party sources to be reliable, the Company has not independently verified the information and cannot guarantee its accuracy and completeness.

Unified ID^{2.0}

The what and why...

We collaborate with industry organizations to operate Unified ID 2.0 (UID2) for the open internet.

We built an open-source technology to convert email address to anonymized IDs.

We dedicated internal resources to build the technology.

We believe the open internet must continue to thrive.

UID2 is non-proprietary and available to advertisers, publishers, DSPs, SSPs, single sign-ons (SSOs), customer data platforms (CDPs), CMPs, identity providers, and data and measurement providers that are in compliance with a code of conduct.

Because the future of identity matters

Investment highlights

1. Q1 revenue grew 28% year-over-year
 - Significant outperformance vs ad-funded peers and high growth companies over the last 2 years.
2. In addition to high growth, continue to produce strong EBITDA margins and free cash flow generation.
3. Total advertising TAM is heading toward \$1 trillion.
4. CTV is our largest and fastest growing channel and will be for the foreseeable future.
5. Still early in tapping into the large Retail Media opportunity.
6. Significant opportunity for international growth.
7. Objectivity is our greatest asset: we align our interests with the buy-side
